QuantWorld Hackathon

Hackathon Emotion Check-ins

Over the next days, we will ask you a few short questions about how you are feeling.

- It takes about 10 seconds each time
- It is anonymous: we cannot see who answered what
- There are no right or wrong answers
- Your feelings during these days will shape our creative seminar in the Summer Semester 2027, which grows out of this Hackathon.
- Simply scan the QR code on the slide or type the link into your device, and answer the check-in question anonymously using Microsoft Reflect
